

For Immediate Release

**RAM Technologies Once Again Named to
Philadelphia Business Journal's List of Top Software Developers**

FORT WASHINGTON, PENN. – November 8, 2011 - For three consecutive years RAM Technologies, Inc. of Fort Washington, Pennsylvania has been named to the Philadelphia Business Journal's List of Top Software Developers. The annual list recognizes the Greater Philadelphia region's fastest growing software development organizations. RAM Technologies is focused on providing superior enterprise software solutions that simplify the administration of healthcare for RAM's expanding payer client base.

RAM's solutions include HEALTHsuite® and *eHealthsuite*™. HEALTHsuite is a comprehensive application suite designed to support all aspects of healthcare administration including: group administration and membership management (eligibility and enrollment processing), benefit administration, provider contracting & reimbursement, provider credentialing, medical & utilization management, care management, claims adjudication, overpayment recovery, subrogation, premium billing, capitation, customer service, fulfillment, reporting, EDI and more. With HEALTHsuite healthcare organizations dramatically increase processing capabilities while achieving compliance with the ever changing regulations of healthcare. HEALTHsuite offers payers a fully integrated solution that reduces administrative expenses.

eHealthsuite is RAM's web portal product. *eHealthsuite* reduces demands on a health plan's customer support personnel by providing real-time self-service over the Internet. Providers and members can access their information and conduct real-time transaction processing from their offices or homes via a secure Internet connection. Together HEALTHsuite and *eHealthsuite* offer health plans an efficient and cost effective model for the administration of healthcare.

"RAM Technologies is dedicated to developing solutions that create competitive advantages for our clients" states Christopher P. Minton, Executive Vice President of RAM Technologies. "HEALTHsuite's flexible rules-based processing and extensive workflow allow health plans to leverage the power of a fully integrated solution. At RAM we are committed to reducing administrative costs for health plans while improving the services offered to their constituents."

The Philadelphia Business Journal's list of "Top Software Developers" is an annual recognition of the organizations in the Greater Philadelphia area that are driving the greatest growth. RAM Technologies has been named to other "Top" lists by the Philadelphia Business Journal including the Top Technology Employers in the region.
