

For Immediate Release

**Health Plan of San Mateo Goes Live with
HEALTHsuite® and *eHealthsuite*™ from RAM Technologies**

FORT WASHINGTON, PENN. – June 7, 2011 - RAM Technologies, Inc. is pleased to announce that the Health Plan of San Mateo based in South San Francisco, California has migrated the administration of their health care business to RAM's HEALTHsuite® and *eHealthsuite*™ administrative solution suite. The move to HEALTHsuite and *eHealthsuite* provides the Health Plan of San Mateo with a fully integrated and flexible solution to manage the many complexities of their business.

The RAM solution suite (HEALTHsuite and *eHealthsuite*) has enabled the Health Plan of San Mateo to reduce their applications portfolio and eliminate manual workarounds while dramatically reducing their processing window. "We selected HEALTHsuite from RAM Technologies based on the product's ability to meet the complex and diverse needs of our business," states Eben Yong, Director of Management Information Systems for the Health Plan of San Mateo. "RAM is a valuable partner and we look forward to a long and mutually beneficial relationship."

"The Health Plan of San Mateo administers a variety of benefits including Medi-Cal, Medicare Advantage, Healthy Families and Healthy Kids – each with their own unique processing requirements and business needs," states Christopher P. Minton, Executive Vice President of RAM Technologies. "Our work with the Health Plan of San Mateo was exciting and allowed HEALTHsuite to shine in the administration of these public sector programs. We are pleased to have the Health Plan of San Mateo as a partner and member of RAM's expanding family of clients."

HEALTHsuite is an enterprise wide solution with fully integrated functionality to provide extensive capabilities for enrollment and membership management, benefits administration, provider contracting and reimbursement, medical and utilization management, claims processing, overpayment recovery, care management, customer service & contact management, premium billing, subrogation, capitation, management and operational reporting and more.

eHealthsuite is a powerful e-Health solution that provides a secure web portal for members and providers to interact in real time with the health plan. The self-service capabilities of *eHealthsuite* permit users to conduct transactions from their offices or homes through a secure Internet connection. Plus, *eHealthsuite* supports real-time submission and adjudication of claims enabling providers and health plans options to curtail the expense involved in claims processing.
