

For Immediate Release

RAM Technologies Adds Patient Healthcare Record To *eHealthsuite*™ Web Portal Application

FORT WASHINGTON, PENN. – July 16, 2008 – RAM Technologies, Inc., a leading developer of software solutions serving the administrative needs of health plans and benefit administrators, has added a Patient Healthcare Record to their *eHealthsuite*™ web portal. The Patient Healthcare Record provides a comprehensive reference of detailed medical history for patients and providers.

The *eHealthsuite* Patient Healthcare Record incorporates a multitude of data providing detailed information related to a patient's medical history. Examples include:

1. Diagnosis – primary listing of identified medical conditions
2. Procedures – detailed listing of all provided services
3. Immunizations – record of immunizations with descriptions and dates
4. Prescriptions – history of prescriptions filled with drug description and quantity
5. Health History – detailed description of conditions with dates

About *eHealthsuite*

eHealthsuite is a powerful e-Health solution that provides a secure web portal for members, providers, employers and brokers to interact in real time with a health plan. This highly innovative application enables health plans to reduce administrative costs while improving service. The self-service capabilities of *eHealthsuite* permit users to conduct transactions from their office or home through a secure Internet connection. *eHealthsuite* improves member relations and decreases the cost, effort and time involved in responding to routine inquiries. The real time access to information is integral to reducing Customer Service costs and providing greater access and control for members, providers, employers and brokers.

About RAM Technologies, Inc.

For over 27 years RAM Technologies has been providing innovative software solutions to health care payers. Their advanced applications HEALTHsuite® (fully integrated, enterprise wide administrative application) and *eHealthsuite* are in use throughout the country meeting the complex needs of health plans serving the Medicare, Medicaid, Commercial, HMO, PPO and Federal Health Programs. Headquartered in Fort Washington, Pennsylvania you can contact RAM Technologies via the web at www.ramtechnologiesinc.com or by phone at (877) 654-8810.
