**PrimeCare Medical, Inc. Selects HEALTHsuite® from RAM Technologies
To Administer Correctional Health Services**

FORT WASHINGTON, PENN. – July 27, 2010 - RAM Technologies, Inc., a leading developer of software solutions for the administration of health benefits is pleased to announce that PrimeCare Medical, Inc. of Harrisburg, Pennsylvania has selected the HEALTHsuite® enterprise health care software solution from RAM Technologies, Inc. to manage the administration of their correctional healthcare business. PrimeCare will utilize RAM's advanced software solution to streamline operations and reduce administrative costs.

PrimeCare Medical, Inc. provides comprehensive correctional healthcare services to county jails, prisons, and juvenile detention centers throughout the Northeastern United States. PrimeCare Medical is committed to managing and reducing risk in correctional healthcare by providing cost effective quality healthcare management, continuously improving the standards of care, and striving for national accreditation for all facilities.

"PrimeCare prides itself on effective and efficient management of correctional healthcare services," said Todd Haskins, Vice President of Operations for PrimeCare. "We selected RAM Technologies and their advanced solution HEALTHsuite to allow PrimeCare to maintain our high standards for both the delivery and administration of health care to our clients."

HEALTHsuite is an enterprise wide application with advanced functionality to accommodate the nuances of correctional health services. HEALTHsuite's fully integrated modules include support for inmate management, benefit administration, provider contracting and reimbursement, medical management, care management, claims adjudication, reporting and more.

"RAM Technologies is very pleased to add PrimeCare Medical to our rapidly expanding family of clients," stated Christopher Minton, Executive Vice President of RAM Technologies. "HEALTHsuite provides PrimeCare Medical with a powerful enterprise platform to administer all aspects of their correctional health business while reducing administrative expenses".
