

For Immediate Release

**Philadelphia Business Journal Names RAM Technologies, Inc.
to Top 25 List of Tech Employers**

FORT WASHINGTON, PENN. – August 12, 2008 – RAM Technologies, Inc., a leading developer of administrative software for healthcare payers has been named to the Philadelphia Business Journal’s List of Top Tech Employers in the Greater Philadelphia region. RAM Technologies develops leading edge software solutions to automate the administration of health benefits for health plans and benefit administrators. Their solutions include HEALTHsuite® and *eHealthsuite*™.

HEALTHsuite is a fully integrated, enterprise wide application that automates eligibility / enrollment, benefit administration, provider contracting, medical management, premium billing, care management, claims adjudication, subrogation and more.

eHealthsuite is the web portal that provides real-time access to information for members, providers, brokers and employers. Together these solutions provide health plans and their constituent groups with a system that maximizes efficiencies in a paperless environment.

“Being named to the Philadelphia Business Journal’s Top 25 List is an honor,” states Christopher P. Minton, Executive Vice President of RAM Technologies. “It is recognition for our hard work and our growing influence in the healthcare software industry.”

The Philadelphia Business Journal list recognizes the top Tech Employers in the Greater Philadelphia Area. In addition to their inclusion on the list of Tech Employers, RAM Technologies has also placed in the Journal’s list of Top Software Developers in the region.
